

Name

EcoSchools US: A New & Sustainable Path Forward

Description

Join the National Wildlife Federation staff as we delve into the newly redesigned EcoSchools US program. This revitalized platform boasts a brand-new website, action cards, enhanced platform flexibility, and a streamlined certification process. Navigate the program's three main pathways—Climate, Wildlife and Biodiversity, and Resilient and Healthy Communities—and gain insights into tracking and visualizing the impact of your efforts. Together, we'll explore how teachers can wield the [EcoSchools US framework](#) to empower students in leading actions that contribute to building a more sustainable school and community and uncover the potential for positive change on our planet through student-led initiatives. Join teachers from all over the world who are shaping greener and more sustainable classrooms through EcoSchools US. Furthermore, discover how EcoSchools US seamlessly complements existing educational resources, such as Project WET, WILD, and PLT education guides, enhancing the overall educational experience and reinforcing the collective commitment to environmental stewardship.
